

Software Product Release Notes

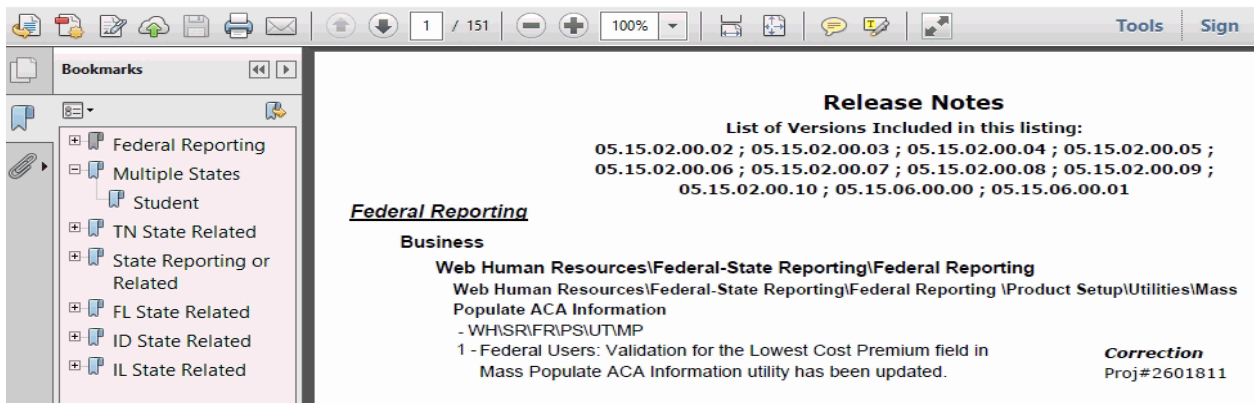

List of Versions Included in this listing:

05.17.02.00.00 ; 05.17.02.00.01 ; 05.17.02.00.02

These release notes are organized into groupings, based on the menu path of the project. The first level is Federal reporting, State reporting (or related), or General Updates. Within those groupings, notes are divided between Systemwide, Business Systems, and Student Systems. Within those areas, they are divided into module groups (menu paths with similar data areas), then sorted by menu path.

For ease of viewing, and utilization of bookmarks, we recommend that you download and save this file, and open it locally with your PDF viewer, as some browsers may not support viewing of bookmarks (Chrome). In Firefox, you can access the bookmarks by clicking on the Toggle Sidebar icon in the upper left corner of the reading pane.

Once downloaded, to navigate, you should be able to use your pdf reader's bookmarks in the left slider bar. By clicking on the bookmark icon, the bookmarks will display. The actual display may vary depending on your pdf viewer and version.

You can expand an area by clicking on the "+", collapse it by clicking on the "-" to the left of the heading. You can use the slider bar in the bookmark window to navigate and select any section to view it. Depending on your pdf reader, you may be able to select the area, right mouse click, and print that section in one action.

Federal Reporting

Business Management System

Employee

Web Human Resources\Employee\Product Setup

Web Human Resources\Employee\Product Setup\Utilities\ACA Utilities\ACA 1095 Import

- WH\EP\PS\UT\ACA\I

- 1 - Federal ACA Users: The ACA 1095 Import process has been updated to create ACA records from a previous ACA record when possible/necessary to import Covered Individuals. Previously, the import required that a 1095 record exist in the employee profile for the year/month being imported before a Covered Individual would be attached.

Enhancement
Proj#3244634

Web Human Resources\Employee\Product Setup\Utilities\ACA Utilities\ACA 1095 Mass Process

- WH\EP\PS\UT\ACA\IP

- 1 - Federal ACA Users: The Offer of Coverage 1A's Lowest Cost Premium field now displays blank. Previously, the amount of 0.00 was displaying.

Correction
Proj#3256677

Web Human Resources\Employee\Product Setup\Utilities\ACA Utilities\ACA 1095 Tracker

- WH\EP\PS\UT\ACA\TB

- 1 - Federal ACA Users: Parameters have been added to the ACA 1095 Tracker. The parameters now resemble the parameter options within the 1095 Workfile process. Methods 1 through 4 are now available to select.

Enhancement
Proj#3243109

Web Human Resources\Federal-State Reporting\Federal Reporting

Web Human Resources\Federal-State Reporting\Federal Reporting \Office for Civil Rights\Part 2 Extract\Extract Civil Rights Data Part 2

- WH\SR\FR\FO\PX\EC

- 1 - Federal Users: The account range filter is excluding account dimensions in Extract Civil Rights Data Part 2 of the Office for Civil Rights report.

Correction
Proj#3253275

Payroll

Human Resources\Payroll\Current Payroll

Human Resources\Payroll\Current Payroll\Select

- HR\PA\CP\SE (PaC)

- 1 - Federal ACA Users: The ACA Hours import from True Time will now import hours from the updated portion of a partially processed time sheet. Previously, the hours could not be imported until the entire time sheet had been updated.

Correction
Proj#3231279

Human Resources\Payroll\Year End

Human Resources\Payroll\Year End\Payroll\Calendar\1094C\1095C Processing

- HR\PA\YE\PA\CA\CP (PaC)

- 1 - Federal ACA Users: When creating a 1095C Workfile and using Method 4, "index out of bounds errors" will no longer occur before the Workfile report runs. **Correction**
Proj#3243395
- 2 - Federal ACA Users: The Workfile Exception Report has been updated with a new section. The new section identifies employees that were omitted from the workfile during creation. It identifies employees omitted due to their safe harbor being a value of 2A, 2B, or 2D for the entire reporting year. **Enhancement**
Proj#3249940
- 3 - Federal ACA users: When a Replacement file is created the retrieval of the previous 1094 information will now include the ALE Form Count. All other transmissions besides replacements will not bring in the ALE Form Count. **Enhancement**
Proj#3259098
- 4 - Federal ACA Users: Running the Create Electronic Submission Files (Step 5) multiple times was causing the XML element Form1095CAttachedCnt to double. This issue has been resolved so that the count will always match the number of 1095 records attached. **Enhancement**
Proj#3256568
- 5 - Federal ACA Users: The IRS File Import (via workfile or finalization) has been updated to correctly create workfile records based on the entries in the workfile. **Correction**
Proj#3257542
- 6 - Federal ACA Users: The 1095C Workfile report process has been modified to no longer run on the AppServer when run from the 1095C Step 2 menu tree. **Correction**
Proj#3259946
- 7 - Federal ACA Users: The 1094/1095 processing finalization process has been enhanced to help direct users in the proper direction when corrections are required for 1094 and 1095 submissions. **Enhancement**
Proj#3229273
- 8 - Federal ACA Users: The selection parameters for self-insured options will copy over from the previous parameters when running the Sync All Employees process in 1094C/1095C Processing. Previously, when using the sync option, the Self Insured flag from the previous transmission was not being retained. **Enhancement**
Proj#3229454

Human Resources\Payroll\Year End\Payroll\Calendar\W2 Processing

- HR\PA\YE\PA\CA\WP (PaC)

- 1 - Federal Users: The tax tables for Colorado and North Dakota have been updated for the tax year 2017. **Enhancement**
Proj#3243996
- 2 - Federal Users: The tax tables for Oklahoma, Oregon, Maryland, Missouri, and Indiana have been updated for the tax year 2017. **Enhancement**
Proj#3228946

Human Resources\Payroll\Year End\Payroll\Previous Years

- HR\PA\YE\PA\PY (PaC)

- 1 - Federal ACA Users: The Previous Year 1095B process now allows the maintenance screen buttons to be active when the transmission is not locked. **Correction**
Proj#3229226

Human Resources\Payroll\Year End\Payroll\Previous Years\1094C\1095C

- HR\PA\YE\PA\PY\CP (PaC)

- 1 - Federal ACA Users: Per 2016 IRS requirements, the 2015 Manifest XML has been updated to use the 2016 schema and the Previous Year Indicator will be set to true (which appears as a value of "1" in the XML file). **Enhancement**
Proj#3232379

TrueTime

Web Human Resources\TrueTime\Product Setup

Web Human Resources\TrueTime\Product Setup\Utilities\Max Hours Mass Assign

- WH\TT\PS\UT\MH

- 1 - Federal ACA Users: When setting up a template for the Max Hours Mass Update utility, the selection parameter for ACA Category Codes is now properly retained and recognized by the process. **Correction**
Proj#3164859

Student Management System

Web Student Management\Federal-State Reporting\Federal Reporting

Web Student Management\Federal-State Reporting\Federal Reporting\Federal Office of Civil Rights\Part 2 Extract\Extract Civil Rights Data

- WS\SR\FR\FO\P2\EC

- 1 - Federal Users: For CRDC, Chronic Absenteeism will pull attendance information from the student's default entity only. **Enhancement**
Proj#3244751

Web Student Management\Federal-State Reporting\Federal Reporting\Federal Office of Civil Rights\Part 2 Extract\Export Civil Rights Data

- WS\SR\FR\FO\P2\EX

- 1 - Federal Users: The CRDC process will now allow Credit Recovery Course Enrollment Course Associations based on class section. **Enhancement**
Proj#3242329
Also, the Part 2 Chronic Student Absenteeism extract has been updated to make sure that at least one Absence Code is selected before the template can be saved. This will prevent the extract from automatically using all Absence Type codes when none were selected.

Web Student Management\Federal-State Reporting\Federal Reporting\Federal Office of Civil Rights\Part 2 Extract\Import\Extract HR Data

- WS\SR\FR\FO\P2\HR

- 1 - Federal Users: The following updates have been made to CRDC reporting: **Enhancement**
Proj#3228741
1. The HR Part 2 data import has been updated so that the FTE and Amount values appear under the correct fields in the Maintain. Previously, the values were flipped.
2. A Help tooltip has been added to the Grade To Use column on the Required Grade Level Setup.
3. LEA Level Student Detail can now be printed by selecting the option on the "LEA-Level Counts of Schools and Students" portion of the Part 1 extract, and a browse has been added to the Part 1 Maintain screen to show this detail.
4. A Student Key has been added to CRDC Part 1 and 2 Maintain browses.
5. Enrollment in Algebra 1 is now based on a single day at the end of class. The option to control which day is found under the "Student Enrollment in Algebra 1" section of the Setup School Characteristics area.

Food Service

Web Applications\Family Access\Food Service Application

Web Applications\Family Access\Food Service\Food Service Application

- WA\FA\FS\AP

- 1 - Federal Users: Food Service Online Applications: The Children and Gross Income sections now allow up to 16 entries to match the application maintenance screen. **Enhancement**
Proj#3254115

Web Student Management\Food Service\Payor

Web Student Management\Food Service\Payor\Customer Maintenance\Application

Verification\Verification Reports\Verification Summary Report

- WS\FS\PM\VE\VR\SU

- 1 - Federal Users: The Food Service Verification Report Section 5-8 now locates the contact record even if it is not the first application of the count group. Previously, the Payor grouping had to be the exact Payor ID of the selected verification student. **Correction**
Proj#3240559

Web Student Management\Food Service\Reports

Web Student Management\Food Service\Reports\AccuClaim Report

- WS\FS\RE\AR

- 1 - Federal Users: The Food Service AccuClaim Report was updated to correctly process the adult purchase counts when multiple cafeterias are selected on the template. Previously, the Adult purchase was counted in each entity and the grand total was multiplied by the number of entities included in the report. **Correction**
Proj#3240598

State Reporting or Related

Multiple States

Discipline

Web Student Management\Office\Discipline

Web Student Management\Office\Discipline\Product Setup \Configuration\Discipline District Setup

- WS\OF\DI\PS\CF\DS

- 1 - A new Discipline District Setup option has been added for the following states: AK, ID, MI, MN, MO, NJ, NM, PA, SD, TN, TX, UT, XX. This "Stop using additional Suspension/Expulsion records" option (WS\OF\DI\PS\CF\DS) will allow districts to stop using additional Suspension/Expulsion records. The additional Suspension/Expulsion records are no longer used by State Reporting. All State Reporting gathers data from the Action Summary and Detail records for Suspension/Expulsion information. **Enhancement**
Proj#3231218 +

Food Service

Web Student Management\Food Service\Payor

Web Student Management\Food Service\Payor\Customer Maintenance\Application

Verification\Verification Reports\Verification Summary Report

- WS\FS\PM\VE\VR\SU

- 1 - Food Service Verification now has a Summary by Site option to show how the district counts are distributed for Section 3. **Enhancement**
Proj#3225998

FL State Related - General System

Systemwide

Product Setup\Skyward Contact Access\Tools

Product Setup\Skyward Contact Access\Tools\Administration Utilities

- PS\CA\TO\AU

- 1 - Florida Users: A new Administrative utility (stestedit055.html) was created to allow users to merge one test into another. Districts who created several versions of the FSA tests from year to year may need to run this utility to merge tests so that students falling under the Alternate Passing Score criteria will calculate correctly for Date Passed Math and Communications. All fields from the original test must be cross-referenced to the new one prior to the merge. A processing browse preview is not available with this utility.

Enhancement

Web Student Management\Federal-State Reporting\Texas State Reporting\Other Exports\Test Exports\STAAR Precoding

- WS\SR\TX\OE\TE\SP

- 1 - Texas Users: Due to the implementation of several changes for STAAR Precoding requirements for the 2017 calendar year, Skyward has updated several areas in order to accommodate the new requirements:
 - 1. When creating precoding files for STAAR 3-8, for online testing, optional Test Group Names for each test subject have been added to the template. Please note that unless the template includes specific Service IDs to reference, all students will receive whatever Online Test Group Name is entered in the template. To limit the export file to only those students taking a specific test, the template ranges will need to be set up to limit by student grade, and by Service ID.
 - 2. Also in the template, the STAAR Submission drop-down menu option "STAAR April" has been changed to "STAAR 3-8" to better reflect testing dates that can occur in various months throughout the year.
 - 3. Test Version codes have been updated to match the new code requirements as well, and are available to select in the STAAR FLDS tab in Student Profile as before. Additionally, students may now receive up to three Test Version codes per test.

Enhancement

Proj#3257247
- 5 - Wisconsin Users: Ed-Fi has been updated to honor the new "Exclude from 3rd Friday September Count" checkbox, found on the Entry/Withdrawal record for a student. When the field is checked, the student will not pull a "3rd Fri Sept" record on the "StudentSchoolAssociationWisconsinExt" complex. **Enhancement**
Proj#3230147

Web Student Management\Federal-State Reporting\Wisconsin State Reporting\Ed-Fi\Ed-Fi\Mass Send Ed-Fi Data

- WS\SR\WI\EF\EF\MS

- 1 - Wisconsin Users: Ed-Fi processing has been updated to no longer pull data from Special Ed Transaction History records. Instead, it pulls only from Special Ed records and uses the new Revision Date field to identify revisions. **Enhancement**
Proj#3240836

A one-time utility has been added to transfer Transaction History records over to Special Ed records with Revision Date filled in.

General Updates

General System

Framework

Framework Maintenance

Framework Maintenance

- FW

- 1 - The Grammarly plug-in for Google Chrome is properly detected on screens containing rich text editors to prevent issues which can occur when Grammarly is saved along with the rich text. **Correction**
Proj#3238735

Print Queue

Product Setup\System Administration\Push Notification Queue

Product Setup\System Administration\Push Notification Queue

- PS\SA\NQ

- 1 - The Push Notifications Preferences screen is now only available if the district has enabled Push Notifications. **Correction**
Proj#3226990

Product Setup

Product Setup\System Administration\Document Management

Product Setup\System Administration\Document Management\Document Setup

- PS\SA\DM\DS

- 1 - Cache clearing was implemented for student and staff pictures that are stored externally. This prevents pictures from being cached in browsers once they have changed in the virtual directory. **Enhancement**
Proj#2147637
- 2 - Document Setup – This change pertains to customers that store their pictures outside of the database. **Enhancement**
Proj#3019027

The old Document Setup option “Stream Student Pictures” has been updated to “Stream Pictures from Media Path.” All student, employee, and staff pictures can now be streamed from the Skyward application rather than coming from a virtual directory, making the “Web Media Path” no longer a requirement. If the “Web Media Path” and “Stream Pictures from Media Path” is checked, the virtual directory may still be used as a performance benefit. Screens like seating charts and EELs will load pictures from the “Web Media Path” if it is populated. Streaming Pictures is also more secure, since users cannot browse the virtual directory. Also, if the web server has access to Media Path, users will now be able to add, edit, and delete external student pictures if they have a security level greater than three.

Customers who have a URL such as <https://skywardwebserver/pictures> in the Media Path field will need to verify that the Stream Pictures From Media Path option is unchecked and that the Media Path contains the correct URL.

Skyport\Widgets\General

Skyport\Widgets\General\My Upcoming Meetings

- SP\WG\GE\UM

- 1 - The Upcoming Meeting widget now only shows meetings on or after today's date. Previously, it was showing prior meetings going back a few years. **Correction**
Proj#3227253

Skyport\Widgets\Secured Users

Skyport\Widgets\Secured Users\Recent Programs

- SP\WG\SU\RP

- 1 - Employee Access links have been removed from the Recent Programs list if the user no longer has access to Employee Access.

Correction
Proj#2816572

Student

Web Student Management\API

Web Student Management\API

- WS\AP

- 1 - Ethnicity and Federal Race have been added to the student model of the API.

Enhancement
Proj#3258455

- 2 - The Student State ID number has been added to the student model in the API.

Enhancement
Proj#3258465

Systemwide

Product Setup\System Administration\Name Merge

Product Setup\System Administration\Name Merge\Merge Process

- PS\SA\NM\MP

- 1 - The Name Merge has been updated for Budgetary Data Mining Favorites. When a name merge is performed, the Budgetary Data Mining favorites of each of the merged names is combined to the merged-to user.

Enhancement
Proj#3218540

Business Management System

Account Management

Web Financial Management\Account Management\Account

Management Reporting

Web Financial Management\Account Management\Account Management Reporting\Budgetary Data Mining

- WF\AM\RP\DM

- 1 - In Budgetary Data Mining, a column has been added to select reports as favorites (similar to Employee and Student Data Mining). A filter has also been added to the browse to display the reports the user has selected as favorites.

Enhancement
Proj#2629679

Key Feature

When the option to Display Data Mining Favorites in General Favorites Menu is checked, the Data Mining favorites are listed in the Favorites widget and are available to be viewed and printed (similar to Employee and Student Data Mining favorites.)

Note: The print icon will bring up the parameter screen in the same way the print button operates on the Budgetary Data Mining browse and edit screens. In this way, the Budgetary Data Mining works differently than Employee and Student Data Mining.

Accounts Payable

Web Financial Management\Accounts Payable\Approve Invoices

Web Financial Management\Accounts Payable\Approve Invoices

- WF\AP\AI

- 1 - Previously, the AP invoice approval browses sometimes displayed PO amounts when the invoice was not tied to a purchase order. The approval browses have been corrected for the PO amounts.

Correction
Proj#3227295

Web Financial Management\Accounts Payable\Credit Cards

Web Financial Management\Accounts Payable\Credit Cards\Product Setup\Utilities\BMO Card

Identifier Mass Assign from File

- WF\AP\CC\PS\UT\BC

- 1 - The BMO Card Identifier utility has been added as an entry in the Credit Card utilities. Previously, users had to create an item under Product Setup, Fix Programs. Also, a new validation has been added; the system will not allow execution of the utility unless the configuration option "Use BMO/Harris Bank Spend Dynamics" is engaged.

Enhancement
Proj#3220038

Key Feature

Web Financial Management\Accounts Payable\Credit Cards\Product Setup\Utilities\Generic Import

- WF\AP\CC\PS\UT\GI

- 1 - The Web generic credit card import will now assign a default account to all transactions when the import file does not carry any account numbers.

Correction
Proj#3223045

Web Financial Management\Accounts Payable\Credit Cards\Review\Submit Transactions

- WF\AP\CC\RT

- 1 - Selection of Purchase Order details (with descriptions longer than 120 characters) to assign to Credit Card transaction details will no longer produce an error.

Correction
Proj#3228973

Web Financial Management\Accounts Payable\Invoice Entry

Web Financial Management\Accounts Payable\Invoice Entry

- WF\AP\IE

- 1 - A "Change History" node is now displayed for browses that are showing AP Invoices.

Enhancement
Proj#3018906

Web Financial Management\Accounts Payable\Invoice Entry\Invoice Entry

- WF\AP\IE\IE

- 1 - When displaying the invoice number in a browse column, the invoice number will now be a link to the invoice entry screen. This does not apply to Washington and International databases; in these databases the invoice number will NOT be a link.

Enhancement
Proj#3209498

When displaying the invoice number in a detail node, the invoice number will now be a link to the Invoice Activity browse.

- 2 - The vendor EEL on the AP invoice entry screen has been updated to allow a vendor to be searched by vendor name, name key, vendor ID, SSN, or TIN/EIN.

Enhancement
Proj#3226549

Key Feature

Accounts Receivable

Web Financial Management\Accounts Receivable\Payor Master

Web Financial Management\Accounts Receivable\Payor Master

- WF\AR\PM

- 1 - Accounts Receivable invoices can now be individually printed from the Web Payor Master.

Enhancement
Proj#3248744

Budget Management

Web Financial Management\Account Management\Budget Management

Web Financial Management\Account Management\Budget Management\Budget Entry\Budget Entry

- WF\AM\BM\BE\BE

- 1 - All of the financial import reports (budget entry, budget revisions, budget transfers, journal entries, and cash receipts) now display the edited account number on the report when the detail lines are printed. Previously, the account ID was printed, instead of the account number.

Correction

Proj#2351764

- 2 - The Budget Entry Change History detail node and More Change History browse will now sort the records the same way. The node and browse will sort the records by date, time, and account number in descending order.

Enhancement

Proj#3102087

An auto-load program was created to get the Budget Entry Change History table fields populated correctly for the new sort order and will run automatically with the addendum update.

Web Financial Management\Account Management\Budget Management\Transfers

- WF\AM\BM\TR

- 1 - The import process for budget revision and budget transfer detail lines is now available.

Enhancement

Proj#2816554

Key Feature

A new configuration option was added to the Budget Transfers Setup Options screen to allow the import of detail lines on a budget transfer. If the option is checked, an Import Detail Lines button will be available on the budget transfer add/edit screen.

A new Budget Transfer Setup Options screen was created. The only option currently available on this screen is to allow users to import detail lines on a budget revision. If the option is checked, an Import Detail Lines button will be available on the budget revision add/edit screen.

- 2 - The import process for budget revision and budget transfer detail lines is now available.

Enhancement

Proj#3181818

- 3 - A new configuration option was added to the Budget Transfers Setup Options screen to allow the import of detail lines on a budget transfer. If the option is checked, an Import Detail Lines button will be available on the budget transfer add/edit screen.

Enhancement

Proj#3181813

A new Budget Transfer Setup Options screen was created. The only option currently available on this screen is to allow users to import detail lines on a budget revision. If the option is checked, an Import Detail Lines button will be available on the budget revision add/edit screen.

Employee

Web Human Resources\Employee\Data Mining

Web Human Resources\Employee\Data Mining

- WH\EP\DM

- 1 - When a custom form is filled out and fields are left blank, the Data Mining report now reflects the blank fields. Previously, the Data Mining report was filling in the blank areas with data.

Correction

Proj#3226055

Web Human Resources\Employee\Employee Profile

Web Human Resources\Employee\Employee Profile

- WH\EP\EP

- 1 - When changing the Add-On pay code to match the main assignment, the existing account distributions will be cleared from the Add-On. The accounts will then populate with the assignment's accounts.

Correction
Proj#3231391

Web Human Resources\Employee\Pseudo Approval

Web Human Resources\Employee\Pseudo Approval

- WH\EP\PA

- 1 - The system now displays auto-approved confidentiality flags in Pseudo Approvals as auto-approved and completed. Previously, in the Pseudo Approval area, the request was showing as Waiting Approval, but it had already been auto-approved.

Correction
Proj#3251927

Web Human Resources\Employee\Product Setup

Web Human Resources\Employee\Product Setup\Configuration\Custom Forms Setup\Custom Forms Setup - Main Screen

- WH\EP\PS\CF\CFMS

- 1 - Advance custom forms with a decimal field now show zeros after the decimal point. Previously, when printing the custom form, the zeros were being removed.

Correction
Proj#3241032

Web Human Resources\Employee\Product Setup\Utilities\Portfolio Importer

- WH\EP\PS\UT\PI

- 1 - The utility Portfolio Importer has been added to Accounts Payable on Web. All attachment groups for Finance, with the exception of AP Invoices, have been removed from selection on the import template.

Correction
Proj#3057386

Employee Management

Web Human Resources\Employee Administration\Employee Management

Web Human Resources\Employee Administration\Employee Management\Product Setup\Utilities

- WH\AD\EM\PS\UT

- 1 - A new utility is now available under the Employee Management Utilities to mass add additional pay codes. Previously, it was necessary to enter additional pay codes manually.

Enhancement
Proj#3243416

Web Human Resources\Employee\Employee Browse

Web Human Resources\Employee\Employee Browse\Profile Tabs\True Time\Workweek Totals

- WH\EP\TB\TT\WT

- 1 - Paid time off now displays properly under the Paid Hours Off column for Workweek Totals in Employee Profile. Previously, all time off hours were displaying under the Unpaid Hours Off column.

Correction
Proj#3241050

FastTrack

Web Applications\Employee Access\Fast Track Open Positions

Web Applications\Employee Access\Fast Track Open Positions

- WA\EM\FT

- 1 - When in Employee Access and using the Posted Positions filter, the area now displays alphabetically. Previously, the display was in a random order.

Enhancement
Proj#3218687

Fixed Assets

Financial Management\Assets\Assets Menu

Financial Management\Assets\Assets Menu\Fixed Asset Utilities\Fixed Asset Import-Export

Options\Import by tag key

- FM\AS\AM\UT\IE\TK (PaC)

- 1 - PaC TAB-DEL and BMI-IMP fixed asset import layouts are now reading the status correctly from the import file.

Correction

Proj#3231178

Web Financial Management\Fixed Assets\Data Imports

Web Financial Management\Fixed Assets\Data Imports\Imports\Import Fixed Assets

- WF\FA\IE\IM\IF

- 1 - The Web Fixed Assets Import has been updated to support processing of records marked as missing on the import file (TAB-DEL and BMI-IMP layouts), consistent with PaC. When TAB-DEL or BMI-IMP layouts are used to import Fixed Assets, the file may specify the import status as missing ("M"). When there are missing records on the import file, the Web import now processes these correctly.

Correction

Proj#3232428

Records marked as missing will not be imported, and this information is available for the user in the Warning/Exception column of the preview browse. The Import List and Exceptions reports will not list these records. The Update Process will not process these records (consistent with PaC).

Additionally, when the BMI-IMP layout is used, the Update List import will not include the missing records, and the Print Asset Not on Import file will print the missing records as not on file (consistent with PaC).

Web Financial Management\Fixed Assets\Product Setup

Web Financial Management\Fixed Assets\Product Setup \Utilities\Fixed Asset Processing

Options\Build Assets From Invoices

- WF\FA\PS\UT\FA\BA

- 1 - 1. Account filter programs now look up and save the correct dimension for exclude/include filter details. Previously, when attempting to store a detail range for FUNCTION for expense accounts in a database using account structure "IIIL," the wrong dimension number was saved on the detail range record.
2. Type is now correctly excluded from the list of available dimensions for which to add a filter detail range.
3. When adding a new filter, the master fields are initialized to open, avoiding the incorrect error message when adding an exclude/include detail range.
4. In Edit mode, only the ranges may be changed, not the dimension. If the range needs to be added to a different dimension, please delete and re-add the detail, selecting the correct dimension the second time, which is consistent with the way PaC works.

Correction

Proj#3242483

General

Web Human Resources\Employee\Online Forms

Web Human Resources\Employee\Online Forms

- WH\EP\OF

- 1 - When an online form is configured to require completion of each step, and the step has a link, users are now required to view the link before checking the completed box. Previously, if users skipped that step and went back, they were able to check the box without viewing the link.

Correction

Web Applications\Student Access\Calendar

Web Applications\Student Access\Calendar

- WA\SA\CA

- 1 - From the calendar in Family Access/Student Access, Absence/Tardy items will now correctly print when only the Absences/Tardies checkbox is selected.

Correction

Proj#3232778

Web Student Management\Students\Student Access

Web Student Management\Students\Student Access>Login History

- WS\ST\SA\LH

- 1 - The correct records will now always show when switching from the Student Access Login History browse directly to the Family Access Login History browse, and vice versa.

Correction

Proj#2983683

Fee Management

Web Student Management\Administration\Fee Management

Web Student Management\Administration\Fee Management\Customers

- WS\AD\FM\CU

- 1 - When using the Issue Refund option in the Customers browse, the receipt number is now correctly determined and the Balance Due and Credit Balance totals are correct.

Correction

Proj#3259641

Web Student Management\Administration\Fee Management\Mass Fee Creation\General Fees

- WS\AD\FM\MF\GF

- 1 - The Fee Management Mass Delete General Fees was updated with the following changes:
 1. The Effective and Due Dates were changed to be date ranges instead of a single date to be deleted.
 2. A new option to "Delete Fees from Withdrawn Students" will allow the mass delete of fees that were assigned to inactive students after they were withdrawn (such as Arrears record).
 3. The Student Status check was updated for Bill by Entity users to check the student's status in the current entity instead of their default entity. This will assist with the deletion of fees from a middle school where a student is inactive because they have moved to the high school where they are active.

Enhancement

Proj#2603847

Web Student Management\Administration\Fee Management\Payors

- WS\AD\FM\PA

- 1 - The Fee Management Waiver status flag now sets correctly when a Food Service application is edited and saved, and the sibling clone is also selected to update.

Correction

Proj#3222565

Web Student Management\Administration\Fee Management\Reports\Payments by Check Number

- WS\AD\FM\RE\PN

- 1 - The Fee Management Payment By Check Number report now allows online payments to print all transactions when multiple payments are received via Web for the same payor on the same day. Previously, the number of payments displayed per payor per day were limited to one record for the check number.

Correction

Proj#3178893

Food Service

Web Applications\Family Access\Food Service Application

Web Applications\Family Access\Food Service\Food Service Application

- WA\FA\FS\AP

- 1 - The Food Service, Family Access, Online Application social security number is now required on the Gross Income entry screen and will display a warning unless the applicant has a case number or has all foster children entered.

Correction

Proj#3251996

Web Student Management\Food Service\Payor

Web Student Management\Food Service\Payor\Customer Maintenance\Customers

- WS\FS\PM\CU

- 1 - The entry areas for Educator Access Plus Food Service and Food Service Tally Sheets has been updated to show when a customer has a Stop Purchase on their account to prevent classroom purchases when the stop is set.
 1. The Educator Access Plus, My Classes, Food Service screen now disables the item checkbox for students with a temporary or Permanent Stop Purchase set on the customer account. A help box is available to state the student has a stop purchase for the item.
 2. The Food Service Tally Sheet now displays STOP in the tally column for students that have a stop purchase record on the customer account.
 3. The Inquire/Modify Tally Sheet screen has the entry field disabled for students with a Stop Purchase on the customer record.

Correction

Proj#3227337

Web Student Management\Food Service\Payor\Customer Maintenance\Payors

- WS\FS\PM\PA

- 1 - 1. The Food Service to Fee Waiver Sync utility has been updated so that it is only added to the print queue once the current process completes.
 2. The scoping of the record lock has been updated to reduce lock wait timeouts.

Correction

Proj#3073603

Web Student Management\Food Service\Purchases

Web Student Management\Food Service\Purchases\Point of Sale

- WS\FS\PU\PO

- 1 - The Food Service Point of Sale will prevent a negative quantity count from occurring and displaying on reports in cases where a delete process causes a negative count in POS.
- 2 - The Food Service Point of Sale no longer stops 2nd purchases for Government Funded items that have a specific lunch code set as not government funded, such as for staff members, when the Disable Government Funded 2nd Meal Purchases option is set in the configuration.

Web Student Management\Food Service\Purchases\Tally Sheets\Inquire\Modify Tally Sheet Data

- WS\FS\PU\TA\IM

- 1 - Tally Sheets were updated to correctly assign the Second Cost Purchase flag when two different items of the same type are purchased on the same date.

Correction

Proj#3228928

Web Student Management\Food Service\Year End

Web Student Management\Food Service\Year End\Food Service Year End Process

- WS\FS\YE\YE

- 1 - The Food Service Year End process now allows users to specify the date on which the new school year begins.
 1. In the Food Service Year End process for step 1, a date field is now available to select the new school year start date. Payments and purchases on or after this date are now carried forward to the new school year and all payments and purchases prior to this date are made historical.
 2. All Online Payment Interfaces are suspended to prevent payments from being made while the year end process is running. After Year End is complete, the online payments will be enabled again.
 3. Once Year End is complete, the Food Service Year is incremented and the new school year start date from step 1 is set in the Food Service Configuration screen.
