manually via security group maintenance.

Sending files manually requires that the EWS Export was run using
the "ZIP Export Files" option (individual .csv files cannot be sent to
the state). Then, sending the file is done by highlighting the .zip file in
the View Exported Files/Save Locally for Submission browse and
clicking the "Send File to State" button. Sending files automatically is
done by using the "Auto Send Files" option on the EWS Export. This
will automatically check the "ZIP Export Files" option as only .zip files
can be sent to the state. When the export is run, the files will be
created and automatically sent to the state. The status of the FTP
transfer for either process (automatic or manual) can be viewed by
expanding the record on the View Exported Files/Save Locally for
