## ***TX State Related***

### **TX State Related - Student Management System**

#### ***Attendance***

##### **Web Student Management\Office\Attendance**

##### **Web Student Management\Office\Attendance\Product Setup \Codes\Calendar Codes**

- WS\OF\AT\PS\CO\CC

- 1 - Texas Users: An option to Override the Total Minutes per Day has been added to the Calendar Master. This override amount replaces the default number of total minutes used in full-day calendars (420). This override is intended solely to be used for calendars that are used to meet the 37,800-minute reporting requirement, instead of the 75,600-minute requirement.

***Enhancement***  
Proj#3338096

For half-day calendars, on the Calendar Master screen, first enable the override and then enter the total number of minutes per day that are needed to meet the 37,800-minute requirement. The amount entered may be the same as the "Minutes per Day" field, or they may be different. An example would be if the calendar has 180 days, but students are only there for 180 minutes per day. In that instance, the override field would need to have 210 minutes entered for the total minutes reported to equal 37,800.

#### ***Grading***

##### **Web Student Management\Office\Grading\Transcripts\Reports\Transcript**

- WS\OF\GR\TR\RE\TR

### **Web Student Management\Federal-State Reporting\Texas State Reporting\PEIMS\PEIMS\Extract PEIMS Data**

- WS\SR\TX\PE\PE\EP

- 1 - Texas Users: PEIMS processes have been updated to use the new Override Total Minutes per Day field added to Calendar Master when reporting Calendar Date data for the TSDS PEIMS Summer Submission. **Enhancement**  
Proj#3338105

When the override field is enabled, and total minutes are entered, our PEIMS processes will use that as the total number of minutes per day when calculating Waiver Minutes. This was added for use with half-day calendars, where the standard total minutes per day of 420 is not applicable. Please note that TEA does not allow more than 420 minutes per day to be reported if that total includes Waiver Minutes, and our override field can not be used for that purpose.

- 2 - Texas Users: As of the 2017 school year, PEIMS processes will no longer include courses with a Service ID beginning with a nine, as these Service IDs are no longer included in the C022 code table. **Enhancement**  
Proj#3339731
- 3 - Texas Users: PEIMS processes have been updated to only process waiver information for Calendar Days that have an event with a valid waiver event type code. This should resolve instances where non-waiver Attendance Events were causing data issues, as well as reporting waiver data for days with at least 420 Operational Minutes. An issue with being unable to edit CalendarDate records in PEIMS Maintain was corrected as well. **Enhancement**  
Proj#3338564

### **Web Student Management\Federal-State Reporting\Texas State Reporting\PEIMS\Pre-PEIMS\415 Course Completion Record**

- WS\SR\TX\PE\PP\CC

- 1 - Texas Users: The 415 Pre-PEIMS process has been updated so the Pass/Fail code check is now a Skyward Edit. That means, unless you check the box on the template for Skyward Edits, you will not see the T0C136 error that indicates students have a 00 for their Pass/Fail Indicator Code. It is suggested to run the report without the Skyward Edit option enabled until after the school year ends and the pass/fail credit utility has been run. **Enhancement**  
Proj#3341037

### **Web Student Management\Federal-State Reporting\Texas State Reporting\Reports\Attendance\Contact Hours Report**

Proj#3309539

**Web Student Management\Federal-State Reporting\Texas State Reporting\Reports\Attendance\Daily Register**

- WS\SR\TX\RE\AT\DR

- 1 - Texas Users: An issue with the Daily Register was corrected, so that students with an Instructional Setting of 91 will have their RDSDP and Excess Contact Hours fields in the 405 Records created correctly. Previously, the fields would result in a null "><" in the StudentAttendance interchange file. **Correction**  
Proj#3340278

**Web Student Management\Federal-State Reporting\Texas State Reporting\Reports\Attendance\Student Withdrawal\Record Transfer Form**

- WS\SR\TX\RE\AT\SW

- 1 - Texas Users: This project corrects a defect that could sometimes cause the Student Withdrawal/Record Transfer form to report an incorrect Last Date of Attendance. In very rare instances, the report referenced the entity year record for the first year a student was enrolled in their last entity, rather than the entity year in which the last withdrawal occurred. **Correction**  
Proj#3336455

**Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS PEIMS\Extract TSDS PEIMS Data**

- WS\SR\TX\TS\TP\ET

- 1 - Texas Users: The Primary Disability element in the RestrainedEvent complex of TSDS PEIMS will only be reported if the Special Education status is 1. The element was previously reporting for all students, which resulted in an error as it is only reportable for Special Education students. **Enhancement**  
Proj#3337379
- 2 - Texas Users: The CalendarDate business rules 10200-0014, 10200-0031, and 10200-0033 have been updated to match the new standards posted by TEA in their Resolution Notes document for their 4/21/2017 changes. 10200-0014 will no longer display going forwards, and the other two rules were downgraded from Fatal to Special Warnings. **Enhancement**

1. If the student was withdrawn from a Gifted program on or after the last day of school in the gifted entity, then the Gifted record will be carried forward to the next school year.
  2. If the student was withdrawn from a Gifted program prior to the last day of school in the gifted entity, then the Gifted record will not be brought forward to the next school year.
