Web Human Resources\Federal-State Reporting\Texas State Reporting\TRS\TRS Work Days\Update TRS Work Days

- WH\SR\TX\TR\WD\UP

- 1 - Texas Users: The Update TRS Work Days and Adjust TRS Work Days utilities have been modified so that either Hours Worked or Hours Scheduled can be populated. If populating Hours Scheduled, only Employee Management can be used to populate them. Hours Worked will be extracted the same way they were previously. Hours Scheduled will be extracted using the Hours Per Day on the employee's assignment and the number of default days from the calendar. The template will also require selection for how to process existing Hours Worked and Hours Scheduled. An exception has been added to the extract if hours exist in both Hours Worked and Hours Scheduled.

Web Student Management\Federal-State Reporting\Texas State Reporting

Web Student Management\Federal-State Reporting\Texas State Reporting\PEIMS\PEIMS\Extract PEIMS Data

- WS\SR\TX\PE\PE\EP

- 1 - Texas Users: TSDS PEIMS ReportingPeriod and CalendarDate processing have been updated to check the Calendar (Instructional) Track when looking for duplicates. This means that when duplicate calendars within an entity would otherwise result in one of them not being extracted, having different track numbers will allow both to be created. Also, for entities using the PEIMS Entity field, including the track will mean that calendars that have identical start and end dates (where only the calendar in the reportable entity should be reported) will now result in only one of the calendars being reported if their track numbers are the same. Conversely, if the dates match, but both calendars need to be reported anyways, as when there are different attendance minutes to be reported, then both calendars will be extracted if the track numbers are different. And, in all cases, CalendarDate records will continue to be created for every calendar that has had ReportingPeriod records created for it.

Enhancement
Proj#3381182

- 2 - Texas Users: PEIMS processes have been updated for handling teacher transactions outside of Course Length Sets. 305 Records will now assign the correct teacher if the teacher dropped outside of when the class was taught.

Enhancement
Proj#3384094

- 3 - Texas Users: PEIMS processes have been updated to no longer ignore the Service IDs from obsolete Edit 30010. These are Service IDs for specific subjects for sub-1st grade students.

Enhancement

Web Student Management\Federal-State Reporting\Texas State Reporting\PEIMS\Pre-PEIMS\435 Student Restraint

- WS\SR\TX\PE\PP\EC

- 1 - Texas Users: The Restraint Number will be formatted as six characters on the Pre-PEIMS 435 and PEIMS Edit report for 435. This corrects a display-only issue where leading zeroes would sometimes not display. This issue had no effect on reported data.

Correction
Proj#3377515

Web Student Management\Federal-State Reporting\Texas State Reporting\Texas Student Data System (TSDS)\TSDS PEIMS\Extract TSDS PEIMS Data

- WS\SR\TX\TS\TP\ET

- 1 - Texas Users: StudentDiscipline complexes will now only include the LEP Indicator of 1 if the student has an LEP record to report for the year. This corrects an issue where the indicator could be reported as 1 for students without LEP records. Please note that for the data to be reported correctly in the StudentDiscipline interchange, the Daily Register must be re-run to build PEIMS records in addition to the regular PEIMS Extract process.

Correction
Proj#3379298

- 2 - Texas Users: The TSDS PEIMS Section complex will now pull the database value for the Population Served if there is not an associated 305 record. When creating records for classes with a Non-Campus Based Instruction Code other than 00, where 305 records that contain the Pop Served field would not normally be created and where no 305 record is created, the Pop Served field will be referenced directly in the Section being reported in Course Master when creating the Section Complex of the MasterSchedule interchange.

Enhancement
Proj#3380921

- 3 - Texas Users: The TSDS PEIMS process will now report Special Education status for Discipline reporting as of their status at the time of the discipline event. Previously, Special Education status was always reported with a 1 if the student was Special Education at any point in the year. That issue resulted in Business Rule 44425-0002 and has now been corrected.
