FL State Related - Business Management System

Web Human Resources\Federal-State Reporting\Florida State Reporting

Web Human Resources\Federal-State Reporting\Florida State Reporting\Other Exports\Sunshine Connections\Extract Sunshine Connections Data

- WH\SR\FL\OE\SC\ED

- 1 - Florida Users: The Sunshine Connections (PEER) Extract no longer includes employees based on Payroll Date. The Payroll Date range has been changed to an Assignment Date range so that employees will be included if they have assignments that are active within the entered date range whether or not they have been paid.

Enhancement
Proj#3419818

FL State Related - Student Management System

Attendance

Web Student Management\Office\Attendance

Web Student Management\Office\Attendance\Reports\Calendar Reports\Calendar Report

- WS\OF\AT\RE\CR\CR

- 1 - Florida Users: The checkbox option "SE Date Count Override," with the corresponding radio set to "Include in Count" or "Exclude from Count," is now just a checkbox option to "Exclude from SE Count." That field can now be optionally added to the Calendar Report.

Enhancement
Proj#3284355

Web Student Management\Federal-State Reporting\Florida State Reporting

Web Student Management\Federal-State Reporting\Florida State Reporting\F.A.S.T.E.R\F.A.S.T.E.R\Send Student Info

- WS\SR\FL\FA\FA\SS

- 1 - Florida Users: The option is now available to enter a specific Grad Requirement Subject code in the FASTER configuration screen to be extracted in the FASTER transcript as the Course Subject Code instead of the Grad Requirement Code.

Enhancement
Proj#3383254

Web Student Management\Federal-State Reporting\Florida State Reporting\Surveys\Export Data\Export Extracted Survey Data

- WS\SR\FL\SU\ED\EE

1 - Florida Users: The following Survey Reject Edits have been updated: **Enhancement**
Proj#3410271

- Student Course Transcript Edits 6, 24, 25
- CTE Student Course Edits 7, 41
- Industry Certification Edits 7, 20
- Student Course Edits 7, 8, 21, 32, 42, 48, 5Z
- Teacher Course Edits 2, 40

2 - Florida Users: The Survey 1 ESE Student Format has been updated **Enhancement**
to export fields in the correct layout for 2018. The Survey 6 reporting
Proj#3419882
of children of students in the Teenage Parent Program has been
updated to only include Pre-kindergarten students. Survey 9 has
been updated to no longer report Demographic records based on
having an active Title 1 SES record.

Web Student Management\Federal-State Reporting\Florida State Reporting\Surveys\Extract\Extract Survey Data

- WS\SR\FL\SU\EX\ES

1 - Florida Users: Several Survey-related updates were made for the **Enhancement**
2017-18 school year: Proj#3394569

1. Federal/State Compensatory Project Format changes.
2. Deleted code "F" from Homeless Student PK-12 code list.
3. Added District Number and School Number Zoned School fields to Prior School Format.
4. Updated Diploma Type codes W07 and W27.
5. Student End of Year Format changes.
6. Deleted Title 1 Format.
7. Reject Edit updates.

2 - Florida Users: The Survey Extract will no longer report data if **Enhancement**
schools are not valid. In most Report Formats, Reject Edit 2 is used
Proj#3429991
to indicate which schools are valid.

Web Student Management\Students\Student Browse

Web Student Management\Students\Student Browse\Profile Tabs\NCLB\NCLB Tab

- WS\ST\TB\NC\NC

1 - Florida Users: The Zoned District and Zoned School fields have **Enhancement**
been moved from the NCLB Tab to a new Special Program Tab. Proj#2252204

Student

Web Student Management\Students\Data Mining

Web Student Management\Students\Data Mining\Special Programs

- WS\ST\DM\SP

1 - Florida Users: The Alternate Assessment State Code and **Enhancement**
Description fields have been added to Data Mining. Proj#3403458

Year End

Web Student Management\Office\Year End

Web Student Management\Office\Year End\Wizard Selection\Student Year End Processes

- WS\OF\YE\SY\YE

1 - Florida Users: When the grade/grad year cross reference is cloned **Correction**
to another year, any grad year that is 8888 or greater is not adjusted
Proj#3417391
for the new school year.

Product Setup

Product Setup\Skyward Contact Access\District Setup

Product Setup\Skyward Contact Access\District Setup\Configuration\State Reporting Configuration

- PS\CA\DS\CF\SR

- 1 - Texas Users: The Build PEIMS Class ID option has been made available for all districts. This option will change how the Class ID element is created by using an alternate method based on the internal identifier for a course. This option was created to allow districts with Course Keys greater than six characters in length to be able to generate the Class ID for PEIMS reporting while still maintaining each ID's unique nature. There are several items districts should be aware of prior to enabling this option:
 1. While the default method uses a combination of several elements to produce the ID, the alternate method uses only two, the internal course identifier and the section. This means that the resulting ID contains very little information to help a user identify the class that generated it, unlike the default method. This can make troubleshooting issues more difficult.
 2. If the option is enabled after data for PEIMS Submission 1 has been accepted by the state, the Class IDs generated for Submission 3 will be different than those that were reported in Submission 1. Please discuss this with your service center prior to enabling the new method.

Enhancement

TX State Related - Student Management System

Enrollment

Web Student Management\Students\Product Setup

Web Student Management\Students\Product Setup \Utilities\Texas Mass Change Process\Adjust Bil\ESL Records for DAEP Absences

- WS\ST\PS\UT\TMAB

- 1 - Texas Users: The Adjust Bil/ESL Records for DAEP Absences utility has been updated to correctly handle students that were absent until the end of the school year. Previously, students with absences on the last day of school were not having their LEP records updated when the utility was run. The utility will now end the student's LEP record when their DAEP absences occur through the last day of school. Please note that, unlike absences that occur during the year, absences through the end of the school year will not result in the LEP record automatically restarting the day after their return. If the student returns the following year, their record will need to be manually restarted upon their first day of attendance.

Correction

Proj#3408294

Grading

Web Student Management\Office\Grading

Web Student Management\Office\Grading\Product Setup\Utilities\Failing Credit Override

- WS\OF\GR\PS\UT\FC

- 1 - Texas Users: The Failing Credit Override utility now processes the combined grades for classes with the same Service ID to match the processing that occurs with the Texas Transcripts.

Correction

Proj#3402014+

Import/Export

Web Student Management\Administration\SkyBuild

Web Student Management\Administration\SkyBuild\Exports\Export File Builder\Export File Builder (Main Screen)

- WS\AD\SB\EX\EF\EF

- 1 - Texas Users: The FitnessGram export has been updated to include an option to ignore the PEIMS Entity override. The option is set by default, but when it is deselected, the resulting file will use the actual Entity ID to create the School ID and Class ID fields in the export. While most districts that have the PEIMS Entity option set for a campus would need that same override information used to create the FitnessGram export file, in rare instances, a district may want to not use the PEIMS Entity override, which is why this new option to disable PEIMS Entity was added. Unless the district is receiving import errors from FitnessGram regarding campus numbers, our recommendation is to leave the new option enabled.

Enhancement

Proj#3365188

Web Human Resources\Federal-State Reporting\Texas State Reporting

Web Human Resources\Federal-State Reporting\Texas State Reporting\TRS\Extract TRS Data

- WH\SR\TX\TR\ED

- 1 - Texas Users: If an employee is not part of the Employee Management Plan, and their Employment Start Date is after the Default Contract Begin Date entered for the ED records on the TRS Extract Parameters, the Contract Begin Date will now be set to the employee's Employment Start Date.

Enhancement

Gradebook

Web Applications\Educator Access Plus\Teacher Access

Web Applications\Educator Access Plus\Teacher Access\My Gradebook\Secondary Gradebook\Assignments

- WA\EP\TA\MG\G2\AS

- 1 - A Weight Multiplier may now always be entered without deleting the existing multiplier.

Correction

Proj#3359925

Web Student Management\Educator Access Plus\Gradebook

Web Student Management\Educator Access Plus\Gradebook\Standards\Academic Areas

- WS\EA\GB\ST\AA

- 1 - The Grade Calculation Option Maintenance for Academic Areas has been updated. First, the screen has been redesigned to make it easier to understand the different options. In the Settings area, a new option labeled Calculate and Display Scores has been added. This will default to As Percentages and the user will have the ability to change it to use a different point-based scale for their scores using the Out Of second option. Because this new option allows for a different scale to be used, all screens for the Standards Gradebook that displayed Percent (or %), have been updated to display Score. The word Score was also previously used for events that were using points for the max value and what the student earned on the event. This has now been updated to Max Points and Points Earned so that there is no confusion and the word Score is solely used for what was percentage. When you change this setting, you'll be prompted to correct the grade mark group High/Default/Low score values. When you make a change to the Grade Calculation Options, the Academic Area will be Locked for Updates shown in a new browse column. A utility runs in the background to correct any data in the Gradebooks for this Academic Area to make sure the data is valid for the updated settings.

IL-UG Enhancement

Proj#2775916

Key Feature

- 2 - A calculation option for Decaying Average has been added to the Academic Areas for use within a Standards Gradebook.

Enhancement
