Mobile

- MB

- 1 - If a user's password has expired, or they are flagged as having to change their password on the next login, they will receive a message indicating that their password has expired. The message will direct them to use the Skyward login page on a non-mobile device to reset their password. This will primarily affect users who only use SMS via the Skyward Mobile Access app. Users who log into SMS on the desktop will be required to change their password at that time, as they always have. If a Skyward Mobile user receives this message, they must log into SMS on the desktop to change their password in order to be able to access the mobile app. This update will allow us to continue to provide secure access to our mobile app.
